

How will the state's housing mandates be incorporated in the City's General Plan?

The city is currently amending the City's General Plan to include the 4,845 new housing units as well as update it to reflect current resident vision of the city's future. How will the city do that and maintain the quality of life enjoyed by Newport Beach residents? How will traffic and environmental impacts be addressed in this plan? How will your neighborhood be affected?

Come hear former Mayor Nancy Gardner and General Plan Advisory Committee Chair, tell in detail, how her committee will create the City's new General Plan and incorporate these housing mandates. There will be an opportunity to ask Nancy questions at the meeting and provide your thoughts on what should be done, including written suggestions for her committee to consider.

If you have a question you would like to ask the speaker, please send it to:
