

How will City's new Mooring Plan affect you?

On May 23, 2023 the City Council approved a pilot program to change the harbor mooring fields configuration and approved changes to the Harbor Code to accommodate the proposed pilot program and the long term plan for all the moorings in the harbor.

Come hear former Harbor Commission Chair Bill Kenney describe the Harbor Commission's Open Water Initiative and the reasons for the changes to the mooring fields. It will affect all users in the harbor:

- Boaters who use and do not use the moorings.
- Use of the water by stand up paddleboarders, kayakers and swimmers.
- Views from bayfront private and public properties.

Bill will also provide an update to the Newport Bay Trash Wheel Project to intercept trash before it enters the bay.

If you have a question you would like to ask the speaker please send it to:
